GENERAL INFORMATION

- 1 Article 20 of the Retirement and Social Security Law allows for the purchase of up to three years of retirement credit for certain military service upon application and proof of honorable service.
- 2 As of May 31, 2016, the law no longer requires that any portion of this military duty have been performed in a specific time or place. If you applied before May 31, 2016 to purchase credit for military service and your request was denied because your military service was rendered outside the times and places formerly specified in the statute, you may re-apply to purchase this military service.
- 3 Payment of the cost may be made in lump sum or by payroll deduction for a period not to exceed the time being credited.
- 4 Application may be made at any time prior to retirement. Service credit will be given only for the amount of military service paid for before the date of retirement.
- 5 In no event, shall the credit granted pursuant to this section, when added to the credit granted for military service with any retirement system of this state pursuant to this or any other provision of law, exceed a total of three years.

Eligibility:

A member must have at least 5 years of credited service. The military service being purchased cannot count toward this total.

How Military cost is calculated:

Members must pay an amount equal to 3% (for Tier 1, 2 or 4) or 6% (for Tier 6) of their compensation earned during the 12 months immediately preceding the filing of an application, multiplied by the number of years of military service being credited. (For example, a Tier 1, 2 or 4 member files an application to purchase credit for 2 years, 9 months of military service. Their earnings over the previous 12 months were \$25,000. Their cost would be \$25,000 x .03 x 2.75 years, which equals \$2,062.50. If this same member were in Tier 6, the cost would be \$25,000 x .06 x 2.75 years, which equals \$4,125.00.)
